Impact of the General Data Protection Regulation in the company

Course content:
This intensive course shows what requirements the EU GDPR places on Swiss companies in the context of the totally revised Data Protection Act and what they must consider during implementation.

- ✓ Contents of the totally revised DSG (Swiss Data Law) due to the anchoring of the GDPR
- ✓ Case studies: actors, marketplace principle, data subject rights, privacy by default, privacy by design, technical and organizational measures
- ✓ Processing directory - structure and legal basis
- ✓ Data Protection Impact Assessment
- ✓ Does the EU GDPR provide for the obligation of a deletion concept?
- ✓ Data protection breach
- ✓ Commissioned data processing
- ✓ Data transfer abroad
- ✓ Website privacy statements: What needs to be regulated?

Goals of the intensive course
The participants should be able to implement the requirements of the EU-DSGVO in the company. They know the documentation requirements (accountability) and how to adapt internal company processes.

Participant group
This intensive course is aimed at those responsible for data protection and compliance as well as managers and senior employees from the following areas
IT and IT security, internal audit, legal and human resources, risk and fraud management. Participation is also particularly worthwhile for project managers.

Duration: 2 days
Costs: 1'500 CHF incl. VAT per person incl. lunch and documentation
Dates and location of the event:
By arrangement. The workshop can be held externally or in-house.
